Kara Eastman Opposes Tax Cuts for Corporations at the Expense of the Middle Class

Kara Eastman, the President and CEO of Omaha Healthy Kids Alliance, the Vice-Chair of the Board of Governors of Metropolitan Community College, and the only life-long Democratic Congressional Candidate running in the Nebraska Second House District, opposes the extreme GOP tax bill, which cuts taxes for corporations at the expense of middle-class families.

Kara Eastman states:

We've learned that 'trickle-down economics' does not help middle-class families. We should not be placing additional burdens on already struggling workers and families. Cutting the corporate tax rate from 35% almost in half to 20% is not fighting for the best interest of all Nebraskans.

Eliminating deductions middle-class Nebraskans rely on is also unacceptable. Removing the student loan interest deduction places additional burdens on students and their families who are already asked to pay excessive amounts for their education. The State and Local Tax (SALT) deduction is vital, and is worth thousands to many workers and middle-class families in Nebraska. Cutting deductions for excessive medical bills when healthcare costs are at record highs is reckless behavior.

This bill reduces tax benefits for families while cutting taxes for corporations. Don Bacon should vote against this harmful bill that panders to corporations instead of Nebraska's working, middle-class families.
